

REDtone

Our Background

REDtone was listed on the Malaysian Exchange Of Securities Dealing & Automated Quotations (MESDAQ), now known as ACE Market, in January 2004. The broadband service provider, a Multimedia Super Corridor (MSC) status company, aims to provide better technology and performance, better value, better customer service and better applications and solutions to its customers.

REDtone offers high speed Internet services, data solutions and discounted voice over IP services. The company is known for its in-house R & D capabilities and its home-grown technological innovations have won many awards in Malaysia and abroad.

In addition to Malaysia, REDtone operates in China as well.
